## (1) SNOW MONKEYS and ZENKOJI TEMPLE DAY TOUR

The snow Monkey's park is located in "Hells Valley" so called because of the natural volcanic activity present there. This activity then produces onsens (hot springs). In winter the valley is covered with a blanket of snow and the temperature drops as you go deeper into it. In fact it gets so cold that the monkeys will sit in the hot spring water pool for long periods. The park is home to about 200 of the lovable monkeys.

One of the most visited temples in Japan, Zenkoji was founded 1400 years ago and stores, what many believe to be the first Buddhist statue ever brought to Japan. Most recently rebuilt in 1707, Zenkoji's main hall has a tunnel in its basement in which visitors are trying to find and touch the "key to paradise" in complete darkness. The key is attached to the wall and grants enlightenment to anybody who touches it.

## (2) Free Cultural Experience at Historical House

You can experience Kimono wearing, Paper folding (Origami) Japanese Calligraphy at the Hakuba's Historical House, built in 1854 as the dwelling of a wealthy local merchant family. It is a place where international and cultural exchange can be found.

This traditional Japanese family residence with its earthen floors and irori hearth is the setting for tourists from overseas to interact with local residents and others.

In addition to Soba making and trying on Kimono, mochi (sticky rice) making and similar events of folk traditions are held throughout the year.

Why not try visiting the Historical house after skiing ??
